## About This Content

The robots from Steam Powered Giraffe are in a video game!

That's right! Steam Powered Giraffe did music for SteamWorld Heist and Rabbit, The Spine, and Hatchworth make an appearance in the game, as themselves, entertaining their fellow robots in-game with their catchy tunes!

This album includes the SteamWorld Heist theme song created by the band, as well as 12 tracks, featuring 6 completely original songs written for the game, and 6 classic Steam Powered Giraffe songs, re-recorded to fit into the SteamWorld Heist game universe. Ever wanted to hear what an acoustic version of Automaton Electronic Harmonics would sound like? Well the game and this album have one! We even have a version of Brass Goggles, with backing vocals sung by the entire game development team at Image & Form Games!

This satisfied me for some reason. Take my money.. Excellent from all points, having a lot of fun, recommend ++++++. To those of you contemplating buying this game, I say this and only this.

"Without love, it cannot be seen."

If you were ever captivated by two questions as a gamer and those questions were:

1. What can change the nature of a man?
2. What is the solution to Schrodinger's cat?

Then i think you will enjoy this game immensely.. ok little puzzler with good difficulty scaling.

74V100. Polypa - yes!! good!!

Zebruh - ewww[www.. It's decent. Most levels are pretty good, some of them are way too easy, some of them are much more frustrating than the others... The one I hated the most were the one where the not-so-good controls were the source of the difficulty.](#)

[Still for the price it's a decent platformer.](#)

A good way to pass time until your real inevitable death. CHEEKI BREEKI. I'm really bad at math but I did my best to earn points. I'm really lookin forward to seeing more games from this developer, it's really promising!!!

Now I'll go back training my brain.. Don't waste your time like I did. The same enemies over and over, just had to pick the same weapon for the whole run and so I was trying to get trough all 1000 rooms.. just no.. Very... Very.. Disappointing.

I thought that this game would be a nice little cool platformer game with awesome stuff.

NO! This game is absolutely terrible.

It's just the same thing over and over again! Jump, Shoot, Repeat.

This is a waste of your money.. Pokemon meets Bejeweled.. Don't waste your time

it's cheap, but don't even waste your money
